

# APsystems Accessories

The APsystems microinverter solution includes a full range of certified products and accessories to suit any PV application. Contact your APsystems distributor, or see our full catalog online at [APsystems.com](http://APsystems.com).

**APSYSTEMS YC600**

**APSYSTEMS QS1**

<b>A</b>	<b>MC4 DC Connector Cap - M</b>	Sealing cap for DC Connector - Male (purchase w/ F)	2060401006
	<b>MC4 DC Connector Cap - F</b>	Sealing cap for DC Connector - Female (purchase w/ M)	2060402006
<b>B</b>	<b>Y3 Bus Cable - 2m</b>	Y3 Trunk cable for YC600/QS1 - 2m (12AWG, TC-ER cULus, 2M, BK-RD-GN)	2322301303
	<b>Y3 Bus Cable - 4m</b>	Y3 Trunk cable for YC600/QS1 - 4m (12AWG, TC-ER cULus, 4M, BK-RD-GN) E489601 (UL) Type TC-ER 3C/12AWG 90C Wet or Dry 600V --- c(UL) Type CIC 90C 600V FT4 Dir Bur Sun Res -40C Cold Bend Hwatek	2322401303
<b>C</b>	<b>YC600-Y/QS1 AC Cable Unlocking Tool</b>	Unlocks the inverter and the AC bus	2352000001
<b>D</b>	<b>YC600-Y/QS1 Conn Cap</b>	Protects an unused connector on the AC Bus	2061702007
<b>E</b>	<b>YC600-Y/QS1 AC Bus End Cap</b>	Waterproofs the end of the AC bus	2060700007
<b>F</b>	<b>DC Extension Cable</b>	2m DC Extension Cable (MC4)	2310360214
	<b>AC Connector - M</b>	AC Cable Connector - Male	2300531032
	<b>AC Connector - F</b>	AC Cable Connector - Female	2300532032

**ECU-R**

The ECU-R is the information gateway designed for residential and commercial applications that do not require consumption monitoring. It collects and transfers module performance data giving you comprehensive monitoring and control over each individual module, optimizing the performance of your solar array.

**ECU-C**

The ECU-C, designed from the ground up as a multi-featured gateway for residential and commercial applications, offers advanced functionality for more data-centric installations, with consumption and production monitoring, contact and relay ports, and high-frequency metering.
